

The Balena shower toilet
– for daily freshness and cleanliness

 **GEBERIT**

The Balena shower toilet – combining enhanced personal hygiene with comfort and elegant design

A unique sense of freshness

For those who take special care over personal hygiene, Balena shower toilets by Geberit provide a unique sense of freshness and cleanliness. This is because fresh water at body temperature is softer, more hygienic and more thorough than using toilet tissue. And it is much more convenient than using a bidet: just sit down and press a button, and the shower arm extends to ensure complete cleanliness. Feeling fresh really is that simple.

Tailor-made comfort

Comfort is a personal thing. So to provide tailor-made comfort, Balena shower toilets offer many features, such as non-contact warm air drying and automatic air purification. A massaging jet or a particularly gentle ladies' shower are also included.

In addition to elegant design and comfort on your terms, Balena shower toilets offer a tremendous sense of well-being, combined with a lasting sense of freshness.

That fresh ‘just showered’ feeling

Feel fresh throughout the day
The gently invigorating shower spray of the Balena shower toilet will leave you with that fresh ‘just showered’ feeling every time you use the toilet. We call it daily well-being. Additionally, Balena shower toilets are very easy and comfortable to use – especially when compared to a bidet. For the ultimate in convenience and hygiene, the shower arm is rinsed with fresh water before and after each use, ensuring that it is spotlessly clean at all times.

Fresh water
– **fresh, comfortable well-being**
Gentle cleaning with fresh water prevents skin becoming irritated and inflamed. This is of particular interest to anyone with sensitive skin. In these cases, non-contact cleaning with a shower spray

at body temperature will be a pleasant experience. In fact, it’s no coincidence the Balena 8000 was the first sanitary fixture to be awarded the coveted LGA certificate for lifestyle, freshness, experience and relaxation by the German Well-being Association.

Natural cleansing
Water has always been an essential part of cleanliness and hygiene. And its advantages are even more apparent when it comes to intimate personal hygiene. Balena shower toilets benefit everyone – regardless of age and physical fitness – and simply enhance the overall feeling of well-being. Furthermore, all Balena shower toilets by Geberit are directly connected to the fresh water supply ensuring the highest standards of hygiene.

The extending shower arm cleans with fresh water.

A Balena shower toilet for every need

Well-designed well-being

Geberit is the only manufacturer of shower toilets to offer the full range from travel shower toilets to adaptable shower toilet seats and, of course, complete systems. In our modern, body-conscious society a Balena shower toilet is an absolute must for today's bathrooms. The range of elegant contemporary designs means there's a model to match any style of bathroom.

In terms of bathroom renovations in houses or apartments, or new building projects, Balena shower toilets have a lot to offer. Besides the many other obvious advantages, a Balena shower toilet eliminates the need for a bidet, which provides greater flexibility in terms of the overall bathroom design.

These are just a few of the reasons why Balena shower toilets by Geberit are the most popular shower toilets in Europe.

Balena 8000
– the ultimate indulgence in shower toilet comfort

**Timeless elegance
and technical finesse**

The Balena 8000 satisfies even the most discerning users with its high quality finish down to the smallest detail, and its luxurious comfort-enhancing features. The renowned product designer Uli Witzig is responsible for the distinctive minimalist design. His inspiration was user comfort, and the result is a timeless, classic elegance combined with convenient and clear controls.

Pure well-being

The air purifier of the Balena 8000 activates as soon as you sit down. With the push of a button, the shower arm extends from its concealed position and cleans thoroughly before retracting again. The intensity of the spray can be adjusted, and is followed by a gentle flow of warm, drying air. This is state-of-the-art personal hygiene: fresh, clean and without contact. In other words, technology to make your life easier.

Individually adjustable

Using the remote control unit, you can adjust the intensity and temperature of both the shower spray and the warm air dryer to your liking. A warm shower spray begins to cool down after a short time, closing the pores, stimulating blood circulation and providing a pleasant, refreshing sensation. The Balena 8000 also offers the option of pulsating massage jet, a gentle ladies' shower or an oscillating shower spray for more intensive cleaning.

The Balena 8000 can also be used like a standard toilet

Ladies'
shower

The sophisticated Balena nozzle cleaning system

The Balena 8000 comes equipped with a unique nozzle cleaning system to ensure optimal hygiene at all times. The nozzles are rinsed with fresh water before each use, and afterwards they are treated with a special disinfectant and rinsed again. This ensures a perfectly hygienic shower arm for every user.

Clear control panel

The buttons on the control panel on the unit are conveniently and clearly arranged.

Convenient remote control unit

The clear and handy remote control unit with a 4-person memory function is supplied complete with a wall mounting.

Ladies' shower

The ladies' shower with its gentle cleaning spray has been specifically designed for intimate personal hygiene. A separate nozzle opening ensures optimal hygiene.

Fine quality throughout

The easy-care, dirt-repellent interior finish, **ceramicplus** by Villeroy & Boch, satisfies even the most stringent demands for cleanliness and hygiene. And because we understand how important it is to sit comfortably, special attention has been given to the shape and the material of the seat. In fact, the finest quality materials have been used throughout, such as the chromium steel cover that protects the shower and dryer arm from contamination.

Child-proof lock

The shower function can only be activated when the toilet is occupied.

Energy-saving

The energy-saving Balena 8000 only heats the water while the system is in use, meaning no energy is needlessly consumed.

Balena 7000 – comfort in every sense

A traditional classic

The wall or floor-mounted Balena 7000 is a classic in our range, combining extensive features with solid construction, simple operation and low energy consumption. Naturally the Balena 7000 also comes equipped with the infinitely variable shower spray, the gentle warm air dryer and the automatic air purifier. In short, it offers all the comforts and advantages of our modern shower toilets. On top of that it has a particularly spacious seat. And for enhanced comfort and convenience, the Balena 7000 is also available with a high seat.

Incidentally, all Balena shower toilets by Geberit are ideally suited for replacing conventional toilets in existing bathrooms.

From the simple to the sophisticated

If you do not wish to invest in a complete system now but would like to experience the wonderful sense of freshness you can only get from a Balena shower toilet, we offer a range of practical adaptable seats from the simple to the sophisticated, featuring automatic air purification or pleasant warm air drying.

Total cleanliness – Balena adaptable shower toilet seats

Fast installation

Balena adaptable shower toilet seats are compatible with virtually any toilet, and installation is extremely easy. Your old toilet seat can be replaced with a Balena shower toilet adaptable seat in no time at all. An added benefit is that should you move house, you can remove the attachment and install it in your new home.

Simple but effective – the Balena 4000

The Balena 4000 boasts elegant, space-saving design and excellent features. The comfortable, cleansing shower spray is activated with the simple push of a button on the clearly arranged control panel, which also lets you adjust the temperature.

Select your preferred comfort features:

Balena 5000 with warm air dryer or Balena 6000 with air purifier

The Balena 5000 and 6000 adaptable shower toilet seats are both characterised by functional design, a simple and visible control panel, and a number of optional comfort features. They offer a unique sensation of cleanliness and hygiene at the touch of a button, featuring the individually adjustable shower spray and – depending on the model – pleasant warm air drying or automatic air purification.

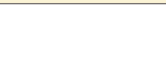

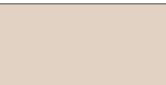

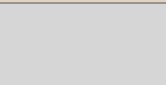

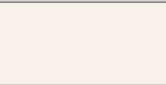

Converting your existing toilet into a comfortable Balena shower toilet is a relatively simple procedure. And once you've done it, you'll never want to be without it.

As individual as you

The comprehensive range of Balena shower toilets by Geberit includes everything from luxury systems to basic attachments and travel models for when you are out and about. Every model is an example of luxurious comfort and convenient operation. In other words, total quality, innovation and design all come as standard.

Our range suits every need, taste and budget, which means no-one need be without a Balena shower toilet. And regardless of which model you choose, we can assure you that you will never want to be without it again.
